

2008 Recipients of the Cargill Scholarship Program for Sons & Daughters - National Merit

The Cargill Scholarship Program for Sons and Daughters - National Merit awards 10 renewable scholarships of \$1,000 for undergraduate studies to children of U.S. Cargill employees. National Merit Scholarship Corporation, our nonprofit partner for this scholarship, administers this program on behalf of Cargill.

This year, nine of the ten Cargill scholarship recipients were named National Merit Finalists, and one student was named a Cargill Special Scholar by NMSC based primarily on a qualifying exam, as well as their academic achievement and efforts in school and community activities.

Cargill is proud to recognize the recipients of this year's scholarship program. Good luck to the Class of 2008!
