

Cargill Water Matters Mini-Grant Application

Water Matters is international program to engage Cargill employees and community members in projects that promote water-quality education and action. In partnership with The Conservation Fund, Cargill provides Water Matters Mini Grants of up to US\$3,000 to nonprofit organizations working to raise awareness of and find solutions to water quality and management issues in Cargill communities. Application is also available online at www.cargill.com in the Citizenship section.
