

Pro's Pick® Solar Salts

Made with Sun, Wind and Time®

Our high purity water softener salts contain up to 99.6% pure salt. Evaporated naturally by the sun and wind, these solar crystals have a white, opaque appearance and a low insoluble content. They are also formulated to resist mushing and bridging, minimizing the accumulation of brine tank residue. The Red-Out® formula product also contains a highly effective rust remover which helps to prevent rust stains on laundry and household fixtures.

Offered exclusively to dealers, these products are NSF-certified to ensure premium quality. They are recommended for use in all water conditioners.

Technical Information

Description

These products are acceptable for regeneration of water softener ion exchange resins and conforms to the requirements of NSF/ANSI/CAN Standard 60 - Drinking Water Treatment Chemicals – Health Effects and also meets the AWWA Standard for Sodium Chloride B-200. These products are intended for use in both household and commercial water softeners and can be utilized effectively in most water softening units. These products contain no known allergens and exhibit virtually no microbiological activity.

Additives

Pro's Pick® Solar Salt contains no additives. Pro's Pick® Red-Out® Solar Salt contains citric acid, an iron complexing agent that helps prevent rust discoloration.

Chemical Analysis

Component	Units	Typical	Specification
Sodium Chloride (dry)	%	99.7	99.6 min.
Water Insolubles	ppm	100	
Citric Acid*	%	0.35	

*Red-Out® solar only

Methods of Analysis

Methods of analysis are based on ASTM E 534, AWWA B 200, and Cargill internal methods.
