

Zerose[®]
Erythritol

A new flavor option for beverage innovation

The Flavor & Extract Manufacturers Association (FEMA) of the United States has recognized the GRAS status of Cargill's Zerose[®] erythritol for use as a flavor in non-alcoholic beverages.

- Labeled as “natural flavor” in the ingredient deck
- Maximum inclusion level of 1.25%
- Approved for use in the U.S.; FEMA GRAS status is also recognized in Mexico; other geographies pending

Benefits of Zerose[®] erythritol as a flavor in beverages:

- Safe to use in beverages
- Reduces the off-tastes of high intensity sweeteners
- Reduces sour, bitter and chemical taste attributes of beverages
