

**LESS IMPACT ON THE ENVIRONMENT.
LESS IMPACT ON YOUR BUDGET.**

MANUFACTURER'S RECOMMENDATIONS

- ClearLane® enhanced deicer is a non-leaching product. The liquid treatment used is water soluble and therefore should be kept under covered storage.
- Blending salt or sand to the product will reduce its effectiveness against scatter.
- Providing superior snow-fighting and effective winter maintenance services requires great expertise and the ability to identify effective application methods. Customers who use this product find they can use between 20-40% less product when compared to rock salt. For best results, use straight ClearLane® enhanced deicer at application rates that show the most effective performance.
- This product is intended for bulk deicing use only. It should not be packaged for any purpose, including for re-sale.

**EPA/Safer Choice recognition does not constitute endorsement of this product. The Safer Choice label signifies that the product's formula as Cargill Deicing Technology has represented it to the EPA, contains ingredients with more positive human health and environmental characteristics than conventional products of the same type. EPA/Safer Choice relies solely on Cargill Deicing Technology, its integrity and good faith, for information on the product's composition, ingredients and attributes. EPA/Safer Choice has not independently identified, that is, via chemical analysis, the ingredients in the product formula, nor evaluated any of Cargill Deicing Technology's non-ingredient claims. EPA/Safer Choice provides its evaluation only as to the product's human health and environmental characteristics, as specified in the Safer Choice Standard and based on currently available information and scientific understanding.*
