

**Non-GMO and
Organic Oils**

A reliable supply of non-GMO and organic oils

Cargill is committed to providing a reliable, expansive portfolio of non-GMO and organic ingredients. Dedication to understanding changes in customer needs and industry trends allows Cargill to provide timely solutions. Technical expertise, a traceable supply chain and investments to expand capabilities make Cargill well-equipped to be your partner of choice when purchasing oils.

A reliable supply of non-GMO and organic oils

Why choose Cargill as a supplier of non-GMO and organic oils? We can provide the most reliable supply of these oils and at the standards you expect. We can offer this peace of mind to our customers because of our proficiencies in these processes and capabilities:

- **Supply chain expertise:** We can use our supply chain expertise to source ingredients that will meet organic and non-GMO standards. Our logistics, processing and documentation systems ensure our oils maintain the specifications you expect.
- **Quality and food safety:** Cargill's externally audited processes and food safety standards are considered industry benchmarks, meaning you'll receive

product that meet your high quality and food safety requirements.

- **Supply assurance:** Through farmer relationships, as well as our domestic and import partnerships, we are able to scale up supply and manage demand.
- **Formulation expertise:** Our R&D team can help with product development by providing fats and oils insights and solutions to new formulations.
- **Cost management:** We can help stabilize your oil costs through risk management tools or long-term contracts.
