

VerSyr[™] Reduced-Sugar Syrups

Reduced sugar content. True, great taste.

LABEL-FRIENDLY

**SUGAR
REDUCTION**

PLANT-BASED

**NON-GMO
AVAILABLE**

Looking to reduce “Added Sugars” on your label? VerSyr[™] reduced-sugar syrups offer a virtually seamless replacement for higher-sugar syrups, while reducing sugar content by up to 50%.

Sourced from either corn or tapioca, VerSyr[™] supports label-friendly sugar reduction across a versatile range of applications.

Label-friendly, formulation friendly

- **1:1 replacement**; few or no process adjustments in many applications
- **Significant sugar reduction**, up to 50% (not a reduced-calorie ingredient)
- **Label-friendly**, as “corn/tapioca syrup” or “reduced sugar corn/tapioca syrup”

Complete solutions for sugar reduction

Cargill offers one of the industry's broadest portfolios of sugar reduction solutions, including VerSyra syrups, stevia, erythritol and complementary texturizing solutions – together with proven formulation expertise to give you a distinct advantage.
