

**Sustainable
palm oil**

Sustainable. Reliable. Assured.

Cargill offers different levels of RSPO* sustainable palm oil that fit your brand, application and operational needs.

Consumers say they are more concerned with how their purchases and lifestyles impact the environment. They look to the companies that produce their favorite brands to help them live their values. In Cargill's 2020 proprietary consumer study called FATitudes™, 38% of participants said that they would be more willing to purchase a food product with a sustainability claim.

RSPO certified palm oil provides a level of assurance to your customers that your company is supporting a sustainable palm oil supply chain. If you have concerns about using palm oil and its impact on your brand reputation, then turn to Cargill to help you elevate your sustainable palm oil story.

*Roundtable for Sustainable Palm Oil

Expanded sustainable palm oil options

Cargill has offered our customers RSPO-certified palm oil at the mass balanced level for more than a decade. As sustainable practices expand and consumer expectations evolve, we recognized the need to provide a higher level of sustainable palm oil to our customers. Now, we can provide RSPO segregated palm oil to the market.

Distinctions of Cargill's RSPO segregated palm oil offering:

- A traceable supply chain to help you meet your sustainability commitments.
- A dedicated facility assures the segregated supply chain at a large scale and increases supply reliability.
- A full range of products to meet the needs of a variety of application and operational needs.
- Technical service scientists to assist with product sampling and trialing in your operations, as well as provide guidance on new product formulation.
- Supply chain and trading experts who manage the supply to ensure reliable supply.

Cargill's sustainable palm oil journey

Cargill was an early member of the RSPO, which has become the primary certifying body for palm plantations. We have a no deforestation, no peat, no exploitation policy. Three of Cargill's palm plantations are RSPO certified. We continue to work toward our goal of providing traceability to palm plantations in high-risk landscapes, implementing a targeted, risk-calibrated approach. For more information about our targets and our 2025 strategy, see our Palm Sustainability Report at www.cargill.com.

RSPO certification levels

Mass Balance

Allows comingling of conventional and RSPO certified palm oil. Purchaser of this oil is contributing to sustainable palm oil production even though the level of certified palm oil is not specified. Mass Balance palm oil from Cargill can be traced back to a group of certified mills and in some cases back to a group of certified plantations.

Segregated

Palm oil from multiple RSPO certified plantations. Segregated palm oil from Cargill can be traced back to a group of certified plantations.

Identity Preserved

Palm oil from a single RSPO certified plantation. Oil can be traced back to origin. Not offered by Cargill.
