

Unipectine® PHARMA-GRADE PECTIN

Introducing our pharma-grade pectin solutions for ostomy formulations.

PLANT-BASED

QUALITY ASSURED

**RELIABLE
GLOBAL SUPPLY**

Cargill's new Unipectine® range of pharmaceutical-grade pectin is designed to provide superior confidence and comfort in vital ostomy applications. As part of a skin-barrier paste formulation, this plant-based hydrocolloid supports improved pouch adhesion and healthier peristomal skin.

- **Exceptional adhesion, flexibility and erosion resistance**
- **Optimal moisture absorption protects skin and ensures easy removal**
- **Optimal and consistent performance**
- **Fine, free-flowing powder**

A global leader in reliable, high-quality, pharma-grade pectin

At the forefront of the pectin industry, Cargill supports pharmaceutical customers with high-quality pectin produced under strict quality controls to ensure consistent quality and performance. Our technical experts work closely with customers to provide specific solutions for medical applications. Cargill's diversified global sourcing and production assets ensure reliable sourcing and cost-in-use.

CARGILL PRODUCTS		
Pectin Products*	Microbiological Standard	Particle Size
