FiberDesign™ Citrus

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
Brandname: FiberDesign™ Citrus
REACH status: Exempt

<table>

Revision date: 30-11-2021

1.2 Relevant identified uses of the substance or mixture and uses advised against

Intended use: Texturizing agent used in cosmetic products

1.3. Details of the supplier of the safety data sheet

Company identification
Cargill France SAS
Usine de Baupte, Rue de Seves
50500 CARENTAN
France
Non emergency telephone: + 33 233 713 400
Fax number: + 33 233 713 465
E-mail address: Cts_Msds@cargill.com

1.4 Emergency telephone number

Emergency telephone: + 33 233 713 400 (24/7)

SECTION 2: Hazards identification

2.1 Classification of the substance/mixture

Classification according to Regulation (EC) No 1272/2008 as amended

Hazard summary

2.2. Label elements
Label according to Regulation (EC) No. 1272/2008 as amended

Hazard statement
The substance does not meet the criteria for classification.

Precautionary statements

Prevention
Not assigned.
Response
Not assigned.

Storage
Not assigned.

Disposal
Not assigned.

Supplemental label information
None.

2.3 Other hazards
Not assigned.

SECTION 3: Composition/information on ingredients

SECTION 4: First aid measures

General information
If symptoms persist or in case or doubt, seek medical advice.

4.1 Description of first aid measures

Inhalation
If symptomatic, move to fresh air. Get medical attention if symptoms persist.

Skin contact
Wash skin with soap and water. Get medical attention promptly if symptoms occur after washing.

Eye contact
Any material that contacts the eye should be washed out immediately with water. If easy to do, remove contact lenses. Get medical attention promptly if symptoms occur after washing.

Ingestion
No harmful effects expected in amounts likely to be ingested by accident (food grade). Seek medical advice if larger quantities ingested or symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed
Dust may irritate the eyes and the respiratory system.
4.3. Indication of any immediate medical attention and special treatment needed
Treat symptomatically.

**SECTION 5: Firefighting measures**

**General fire hazards**
Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

**5.1 Extinguishing media**

**Suitable extinguishing media**

**Unsuitable extinguishing media**
None known.

**5.2 Special hazards arising from the substance or mixture**
This material, like most materials in powder form, is capable of creating a dust explosion. Material can burn in presence of flame and continues when flame disappears. The smoke characteristics can be compared to an organic product.

**5.3 Advice for firefighters**

**Special protective equipment for firefighters**
Self-contained breathing apparatus, operated in positive pressure mode and full protective clothing must be worn in case of fire.

**Special firefightings procedures**
Cool endangered receptacles with water spray. Dispose of fire debris and contaminated firefighting water in accordance with official regulations. Collect contaminated firefighting water separately.

**SECTION 6: Accidental release measures**

**6.1 Personal precautions, protective equipment and emergency procedure**

**For non-emergency personnel**
Wear appropriate personal protective equipment.

**For emergency responders**
Keep unnecessary personnel away. Ensure adequate ventilation. Use respiratory protective device against the effects of fumes / dust / aerosol. Pay attention to the particular danger of slipping on wetted leaked / spilled product.

**6.2 Environmental precautions**
Prevent runoff from entering drains, sewers, or streams.
6.3 Methods and material for containment and cleaning up

Sweep up spilled substance and remove to safe place. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Nonsparking tools should be used.

6.4 Reference to other sections

For personal protection, see section 8. For waste disposal, see Section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Avoid handling which leads to dust formation. Observe good industrial hygiene practices. Avoid contact with eyes, skin and clothing.

7.2. Conditions for safe storage, including any incompatibilities

Keep container closed away from heat sources and protected from extremes of temperature, light and humidity. Store separately from any flavor or chemical products. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres. Refer to NFPA 654, Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids, for safe handling.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits
Not available.

Recommended monitoring procedures
Not established.

DNEL
Not available.

PNEC
Not available.

8.2 Exposure controls

Appropriate engineering controls
Ensure adequate ventilation, especially in confined areas.

Individual protection measures, such as personal protective equipment
General information
Personal protective equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment. The usual precautionary measure should be adhered.

Eye/face protection
Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection
Chemical resistant gloves are recommended.
Wash hands before breaks and at the end of the work.

Other
Wear chemical-resistant gloves, footwear and protective clothing appropriate for risk of exposure. Contact glove manufacturer for specific information.

Respiratory protection
If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Respirator type: Air-purifying respirator with an appropriate, government approved (where applicable), air-purifying filter, cartridge or canister.

Thermal hazards
Not applicable.

Hygiene measures
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls
Environmental manager must be informed of all major releases.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

<table>

**SECTION 10: Stability and reactivity**

10.1 Reactivity
None known.

10.2 Chemical stability
Stable under the prescribed storage conditions.

10.3 Possibility of hazardous reactions
Hazardous polymerization does not occur.

10.4 Conditions to avoid
Incompatible materials. Minimize dust generation and accumulation.

10.5 Incompatible materials
Strong oxidizing agents and acids.

10.6 Hazardous decomposition products
None. Thermal decomposition gives smoke (see section 5).

**SECTION 11: Toxicological information**

General information
Under normal conditions of intended use, this material does not pose a risk to health.

Information on likely routes of exposure
Ingestion
No harmful effects expected in amounts likely to be ingested by accident.

Inhalation
Under normal conditions of intended use, this material is not expected to be an inhalation hazard.

Skin contact
None known.

Eye contact
Direct contact with eyes may cause temporary irritation.

Symptoms
Dust may irritate the eyes and the respiratory system.

11.1 Information on toxicological effects

Acute toxicity
Dust may irritate the eyes and the respiratory system.

Skin corrosion/irritation
Dust may irritate skin for sensitive persons.

Serious eye damage/eye irritation
Direct contact with eyes may cause temporary irritation.

Respiratory sensitization
None known.

Skin sensitization
Dust may irritate skin for sensitive persons.

Germ cell mutagenicity
Not assigned.

Carcinogenicity
This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

Reproductive toxicity
None known.

Specific target organ toxicity - single exposure
None known.

Specific target organ toxicity - repeated exposure
None known.
Aspiration hazard
Not applicable.

Mixture versus substance information
Not available.

Other information
Not available.

SECTION 12: Ecological information

12.1 Toxicity
No toxicity data noted for the ingredient(s).

12.2 Persistence and degradability
Biodegradable; fibers are part of citrus fruits.

12.3 Bioaccumulative potential
No data available.

Mobility
Not available

Environmental fate - Partition coefficient
Not available.

12.4 Mobility in soil
Low potential for adsorption to soil.

12.5 Results of PBT and vPvB assessment
Substance / mixture do not meet screening criteria.

12.6 Other adverse effects
No further relevant information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Residual waste
Dispose of in accordance with local regulations.

Contaminated packaging
Since emptied containers may retain product residue, follow label warnings even after container is emptied.
EU waste code
Waste codes should be assigned by the user based on the application for which the product was used.

SECTION 14: Transport information

14.3 Transport hazard class(es)
ADR Not regulated as dangerous goods.
RID Not regulated as dangerous goods.
ADN Not regulated as dangerous goods.
IATA Not regulated as dangerous goods.
IMDG Not regulated as dangerous goods.

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
No information available.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Other regulations
The product is classified and labelled in accordance with EC directives or respective national laws. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006.

15.2 Chemical safety assessment
A Chemical Safety Assessment is not required for this substance.

SECTION 16: Other information

List of abbreviations
Not available.

REFERENCES
Not available.

Revision information
Date of first issue 11-07-2016
Supersedes date 30-11-2021

Information on revision
Reason for changes
update physical and chemical properties
