

# NatureWax<sup>®</sup> Ultimate

A better foundation for a better burn.  
100% plant-based high-performance wax.

## Match the high performance of paraffin wax blends with 100% plant-based wax

NatureWax<sup>®</sup> Ultimate is 100% plant-based candle wax with all the performance you expect from a paraffin wax blend, without any of the petroleum-based ingredients. Specially formulated for scented container candles, NatureWax Ultimate is designed to solve the problems of other 100% plant-based wax like cracking, fat blooms, and poor fragrance throw. Cargill's proprietary formula is designed for a smooth, elegant wax appearance, long burn time, and exceptional hot and cold scent throw—burn after burn.

### Same high performance as paraffin wax blends

- Smooth, elegant appearance
- Long, consistent burn times
- Excellent fat bloom resistance

### 100% plant-based

- Free of paraffin and petroleum based products
- Contains no palm wax

### Exceptional scent throw

- Specially formulated for scented container candles
- Designed for excellent cold and hot scent throw

Cargill's proprietary technology ensures the same great burn time, appearance, and scent throw as paraffin wax blends, using only 100% plant-based ingredients.

# Performance and technical data

## Product description

Proprietary blend of hydrogenated vegetable glycerides and additives derived from 100% plant-based sources.

## Applications

Formulated for scented container candles and designed to be used as 100% of the wax without the need for blending with paraffin or other waxes.

## Typical properties

Chemical & physical analysis	Minimum	Typical value	Maximum	UoM	Method
Color	-	Off White	-	-	AOCS Cc 18-80
Mettler Dropping Point	115	117	125	°F	AOCS Cc 18-80

## Packaging, shelf life and storage

### Packaging & shelf life

- Available in slabs, drums, and bulk trucks
- Recommended shelf life: 24 months
- Packaged Product: 730 days from the date of packaging

### Storage

- Bulk Product: Store and ship under controlled conditions to protect from light and moisture, maintain correct temperature, and use nitrogen blanket
- Packaged Product: Store at 5 – 35 °C, protect from extreme temperatures
