Find your solution within the world of Cargill Ingredients.

At Cargill, our portfolio of ingredients is so deep, diverse and versatile that it's sometimes hard for customers to understand which items fit into which product groups. Use this snapshot overview to help select the right product category and expedite your ingredient search!

ANIMAL FOOD

Applications include: Pet food and premium pet treats – bones and chews sourced from USDA-inspected beef and pork facilities.

Ingredients you may be looking for: Beef, turkey, beef and turkey by-products, plant proteins, fiber, texturizers, fats and oils, carbohydrates such as starches and maltodextrin, grains and pulses, sea salt, cane sugar, compound coatings and other beneficial ingredients.

BAKERY

Applications include: Breads, bakery mixes, cakes and pies, cookies and biscuits, crackers, pancakes and waffles, pastries, pizza dough, sweet goods, and tortillas.

Ingredients you may be looking for: Flours, starches, oils, shortenings, eggs, salt, sweeteners, proteins, cocoa and chocolate, sweet spreads and toppings, icings, hydrocolloids, lecithins, texturizers, dry corn ingredients, whole grains and fiber.

BEVERAGES

Applications include: Alcoholic beverages, carbonated soft drinks, dairy and soy drinks, energy drinks, functional and flavored waters, juice and juice drinks, powdered beverages, ready-to-drink coffee and tea, and sports drinks.

Ingredients you may be looking for: Acidulants, custom texturizing systems, hydrocolloids, lecithins, sweeteners, health-promoting ingredients, starches and derivatives, cocoa and chocolate, stabilizer systems and functional systems.

CONFECTIONERY (CHOCOLATE & SUGAR)

Applications include: Caramels and chewies, chewing gums, chocolates, fillings, gummies, hard candies, marshmallows and water jelly.

Ingredients you may be looking for: Acidulants, cocoa and chocolate, hydrocolloids, lecithins, sweeteners, starches and derivatives, salt, oils and stabilizer systems.

COOKING INGREDIENTS & READY MEALS

Applications include: Egg stabilizers, flavor encapsulation and emulsion, oils, fats and spreads, ready-to-use mixes, ready meals, retorted soups and canned products, sauces, dressings and dips, and rubs and marinades.

Ingredients you may be looking for: Starches and derivatives, sweeteners, proteins, oils, hydrocolloids, lecithins, salt, stabilizer systems, acidulants, eggs, and flour.

DAIRY (& DAIRY ALTERNATIVES)

Applications include: Cheeses, creamers (including non-dairy), creams, dairy drinks, dips and dressings, ice cream and desserts, powder dairy blends and yogurts.

Ingredients you may be looking for: Acidulants, hydrocolloids, lecithins, oils, salt, stabilizer systems, starches, sweeteners, functional systems, cocoa and chocolate, proteins, health-promoting ingredients and maltodextrin.

MEATS & FISH (& PLANT-BASED MEAT ALTERNATIVES)

Applications include: Cooked cured meats, cooked emulsified meats, dried processed meats, fresh meat products, specialty meat and analogs, and fish and seafood.

Ingredients you may be looking for: Carrageenans, acidulants, salt, starches and derivatives, syrups, flavors, coloring agents, proteins, hydrocolloids, sweeteners, and plant-derived proteins.

SNACKS & CEREALS

Applications include: Bars, cereals, chips and crisps, crackers and salty snacks.

Ingredients you may be looking for: Cocoa and chocolate, oils, flour, health-promoting ingredients, salt, starches and derivatives, sweeteners, dry corn ingredients, proteins, hydrocolloids and lecithins.

SPECIALIZED NUTRITION

Applications include: Infant and baby food, elder nutrition, ready-to-drink active and sports beverages, bars, powders, and ready-to-drink protein-based beverages.

Ingredients you may be looking for: Specialty starches, maltodextrins, lecithin, hydrocolloids, functional systems, sweeteners, and health-promoting ingredients such as arachidonic acid, plant sterols, whole-grain corn products, soy flours, sodium-reduction solutions, and natural zero-calorie sweeteners.

SWEET SPREADS, TOPPINGS & SYRUPS

Applications include: Fillings, toppings, frozen fruit, fruit preparations, sauces and syrups, glazing and piping, icing, jams and jellies, and reformed fruits and vegetables.

Ingredients you may be looking for: Hydrocolloids, sweeteners, salt, starches and derivatives, stabilizer systems, functional systems, edible oils, salt, and acidulants.

***Note:** Ingredient availability varies by region and per supply capacities for all categories.*
