

Wilbur[®] HC-7009 Caramel Flavored Drop

Made with Natural Flavor

Wilbur Chocolate has been creating exceptional chocolate, confectionery, and specialty products since 1865. Quality and consistency are our keys to success - every batch is carefully crafted for preciseness in color, flavor, smoothness and workability.

Introduced by a burnt sugar and toffee aroma, this caramel flavored chip carries a traditional flavor profile of sweetness, butter, and maple syrup with subtle infusion of vanilla and cooked milk. A leading flavor for its nostalgic influence, this classic is a versatile add to a variety of bakery and snack applications.
