

Stevia-based sweetener portfolio

Leading the way in label-friendly stevia.

Not all stevia is created equal. In fact, there can be significant differences in sweetness quality, environmental footprint and labor practices. With Cargill, you can be assured of consistently high-quality stevia sweeteners, produced ethically and more sustainably.

Stevia held to a higher standard

- **Full stevia portfolio**, including leaf-based extracts, Reb M & D produced more sustainably via fermentation.
- **Industry's strictest sustainable agriculture standards** protect both stevia farmers and cropland.
- **Unrivaled product consistency**, thanks to stringent testing throughout.
- **Unparalleled traceability** from the lot back to the farmer's field.

Label-friendly

Sugar reduction

Zero calories

Sustainability credentials

Unmatched expertise in stevia formulation.

Cargill's innovative stevia ingredients are the product of more than 300,000 hours studying its sweetness properties. That insight puts our experts in a unique position to help you optimize product formulation and get products to market more quickly.

Cargill products

	Properties	Functional Benefits
