Ariba Enabled Suppliers

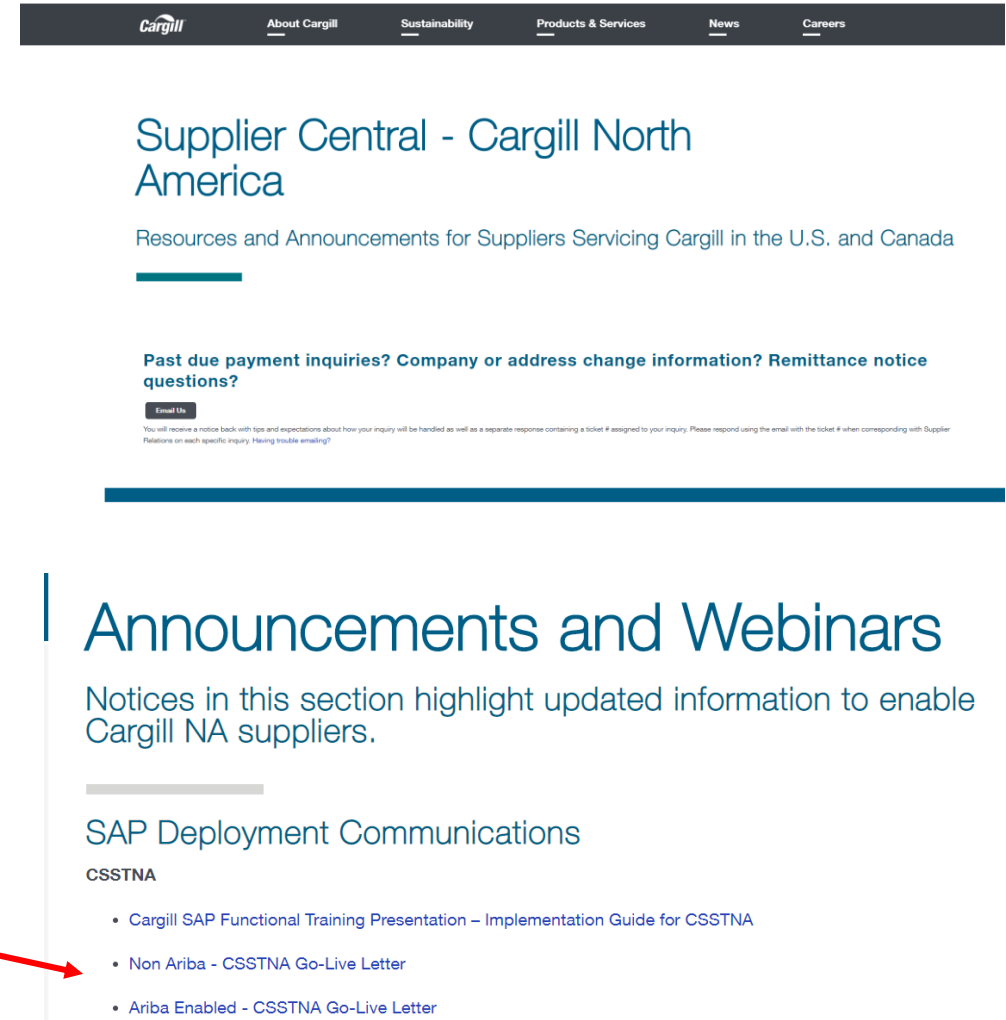

Ariba Enabled Suppliers

- For those not familiar with Ariba, it is an application that Cargill uses for procurement and invoice processing once suppliers are set up on SAP. It is possible that you may transact via Ariba in the future.
- **Please Note:** If your company is already on Ariba, some of the specific content in the rest of these slides may not be applicable for Cargill ARIBA Network (AN) Transactions. Please refer to the [Understanding Ariba](#) section of Supplier Central for information on AN transactions.
 - To avoid payment delays, please be sure to confirm payment terms, currency, incoterms, and taxes are correct.
- Suppliers with questions about their companies' business relationship with Cargill in AN should contact Cargill's NA Supplier Enablement team at CSSP_NASUPPLIERENABLEMENT@CARGILL.COM

Setting Up Cargill In Your System

Setting Up Cargill In Your System

- Cargill encourages suppliers to make sure that the Cargill customer accounts in their system are set up correctly. Please see [How to Set Up Cargill in Your System](#) for additional guidance.
- Cargill recommends that suppliers have a customer record for each Cargill Attn line they transact with.
- Details for the Cargill plant and Attn lines impacted by this change can be found in the Starches Sweeteners & Texturizer North America Go Live letter on Supplier Central under the Announcements & Webinars section.

The screenshot shows the Cargill Supplier Central website. At the top is a dark navigation bar with the Cargill logo and links for About Cargill, Sustainability, Products & Services, News, and Careers. Below the navigation bar, the page title is "Supplier Central - Cargill North America". Underneath is a subtitle: "Resources and Announcements for Suppliers Servicing Cargill in the U.S. and Canada". A section titled "Past due payment inquiries? Company or address change information? Remittance notice questions?" includes an "Email Us" button and a small disclaimer: "You will receive a notice back with tips and expectations about how your inquiry will be handled as well as a separate response containing a ticket # assigned to your inquiry. Please respond using the email with the ticket # when corresponding with Supplier Relations on each specific inquiry. Having trouble emailing?". Below this is a large section titled "Announcements and Webinars" with the text: "Notices in this section highlight updated information to enable Cargill NA suppliers." Underneath, there is a sub-section for "SAP Deployment Communications" with the heading "CSSTNA" and a list of three items: "Cargill SAP Functional Training Presentation – Implementation Guide for CSSTNA", "Non Ariba - CSSTNA Go-Live Letter", and "Ariba Enabled - CSSTNA Go-Live Letter". A red arrow points from the text in the first bullet point of the main text to the "Non Ariba - CSSTNA Go-Live Letter" item in the list.
