Work instruction – Create an invoice on the Ariba Network
Target audience – Suppliers transacting with Cargill using a full-use account
Contact – Supplier_Enablement_EMEA@cargill.com
As of your go-live date, all Purchase Orders will be communicated through the Ariba Network, order confirmation and invoicing must be carried out **ONLY** through the Ariba Network, meaning that **Cargill will no longer accept your invoices via mail/Tungsten**. The only exception are blanket POs. Cargill may cancel remaining months of that PO and will reissue via the Ariba Network. In this instance you will be contacted to reiterate the new number.

!!! IMPORTANT !!!

**Work instruction** | Create an invoice

1 Purpose of the document

This work instruction is intended for suppliers that have a business relationship with Cargill on the Ariba Network using a **full-use account**. The Ariba Network is an online platform used by Cargill to exchange business documents with suppliers, the documents in scope are purchase orders (POs), order confirmations and invoices.

Via this work instruction, we will explain step by step how you can **create an invoice** related to a purchase order for materials or services. All the different invoicing options are clearly explained throughout this document. Should you require any additional information, we invite to explore the following support channels: (i) visit the Ariba Help Center located on the right side of your screen when logged in to your Ariba Network account, or (ii) contact Cargill’s Supplier Enablement support team by sending an mail to **Supplier_Enablement_EMEA@cargill.com**.

**IMPORTANT**

For the best user experience of the full-use account on Ariba Network, we strongly recommend you to use **Internet Explorer** (not Microsoft Edge).
2. Create an **invoice** linked to a **material** purchase order

Please note that **material purchase orders always need to be confirmed before you can create an invoice**.

---

**Step 1.** Log in to your Ariba Network account on [www.supplier.ariba.com](http://www.supplier.ariba.com) by using your web browser.

![Ariba Network Login](image)

**IMPORTANT**

Please note that **Internet Explorer** provides the best user experience.

**Target audience** – Suppliers transacting with Cargill using a **full-use account**

**Contact** – Supplier_Enablement_EMEA@cargill.com
Step 2. Open your "Inbox" to review any Purchase Orders from Cargill that need to be invoiced

IMPORTANT
If you have specified “Email” as the Routing Method for Orders on your Ariba Network account (Company Settings), you will receive an email notification each time a new or revised order is sent by Cargill.

Target audience – Suppliers transacting with Cargill using a full-use account
Contact – Supplier_Enablement_EMEA@cargill.com
Step 5. Complete the required fields (marked with an asterisk): Supplier VAT/Tax ID.

Please note you can find detailed instructions on how to add your VAT number to your company profile on Ariba in the work instruction "Create and configure a full-use account on Ariba Network".
Step 6. Select the line items that need to be included in the invoice.

**IMPORTANT**
By default, all line items of the Purchase Order are included in the invoice. You can deselect a line item by clicking the green button in the Include column next to the line item No.

Target audience – Suppliers transacting with Cargill using a full-use account
Contact – Supplier_Enablement_EMEA@cargill.com
**Result – Excluding a line item from an invoice:**

A screenshot of the Ariba Network interface is shown, demonstrating how to exclude a line item from an invoice. The image highlights the process of selecting a line item and marking it as excluded. The interface includes fields for line number, type, part number, description, customer part number, quantity, unit, unit price, and subtotal. The highlighted portion of the image indicates that excluded line items cannot be modified.

**Contact** – Supplier_Enablement_EMEA@cargill.com
Step 7. Create a pre-defined VAT/Tax rate.

The below steps will describe how you can create a pre-defined VAT/Tax rate that can be automatically applied to line items and invoices. The creation of the VAT/Tax rate only needs to be done once, and can be repeated to add another VAT/Tax rate.

A. Click on the drop-down menu and select the option «Configure Tax Menu».

B. Click on «Create».

Target audience – Suppliers transacting with Cargill using a full-use account
Contact – Supplier_Enablement_EMEA@cargill.com
C. Complete the required fields Rate (%) and Tax Description and click on « OK » when finished.

D. The pre-defined VAT/Tax rate will now be available in the dropdown menu with general taxes.
Step 8. Add the appropriate VAT/Tax rate to the line items on the invoice.

A. Select the appropriate VAT/Tax rate from the drop-down menu.
B. Select all the line items to which this VAT/Tax rate needs to be applied.
C. Click on « Add to Included Lines » to apply the VAT/Tax rate to the selected line items.

D. For each line item, you can still change the VAT/Tax rate by changing the Category from the dropdown menu.

Target audience – Suppliers transacting with Cargill using a full-use account
Contact – Supplier_Enablement_EMEA@cargill.com
Step 9. If necessary, add attachments and / or comments to the line items of the invoice.

A. Select the line item for which you want to add an attachment or comment by checking the box next to the line item No.
B. Click on « Line Item Actions » and select Comments or Attachment from the dropdown menu.
Step 10. Click on « Next » when finished.

Work instruction – Create an invoice on the Ariba Network
Target audience – Suppliers transacting with Cargill using a full-use account
Contact – Supplier_Enablement_EMEA@cargill.com
Step 11. Review the invoice and click on « Submit ».
Step 12. Your invoice is sent to Cargill.

**IMPORTANT**
You are able to print a copy of the Ariba invoice. In order to be compliant with local legislation, we advise you to check the internal processes within your organization regarding invoice archiving requirements.
Step 13. Find your invoice on your Ariba account

You can search your invoice by going to your "Outbox", then search based on the purchase order number or invoice number.

3 Create an **invoice** linked to a **service** purchase order

Follow the steps in section “2 Open a Cargill purchase order” to open the Cargill purchase order and create a corresponding invoice through the interactive email you received from Ariba.

**Step 1.** Once you have selected the appropriate purchase order in your Inbox. Click on « Create Invoice » and select the « Standard Invoice » from the dropdown menu.
Step 2. You receive a pop-up window stating your invoice will trigger the creation of a service entry sheet within Cargill.

**IMPORTANT**
As soon as you have submitted your invoice on Ariba this will trigger a service entry sheet (SES) within the Cargill ERP system. The Cargill requester is responsible for validating the SES.

**Contact** – Supplier_Enablement_EMEA@cargill.com
**IMPORTANT**

Ariba Network will **not allow you to invoice multiple parent lines on a single service PO at the same time.** Consequently, you will be prompted with a question which parent line you want to invoice. Select the appropriate line of the service PO that you want to invoice and click on « Next » when finished. Proceed with the steps as outlined below.

In case all parent lines on the service PO need to be invoiced, you need to create a separate invoice for each parent line.
Step 3. Complete the « Invoice # » and « Invoice Date » fields based on the information from your internal system.

Step 12. Review the invoice and click on « Submit ».

Step 13. Your invoice is sent to Cargill.

IMPORTANT
You are able to print a copy of the Ariba invoice. In order to be compliant with local legislation, we advise you to check the internal processes within your organization regarding invoice archiving requirements.
4 Partial Invoicing

In case you agreed with Cargill to invoice partially, you will have to invoice multiple times per purchase order. For invoicing more than once, there are two options:

- One line item per partial invoice
- One line item for the total amount to invoice

In case one line item is created per partial invoice, you will have to exclude the irrelevant line items and only include the line item your invoicing for via this invoice. This can be done by clicking the switch for those line items in column “Include”. See the screenshot below for clarification.

In case you have one line item for which you want to invoice partially, you will have to adjust the line item quantity on the invoice. Thus, this should not be done by adjusting the Unit Price. Namely, adjusting the Unit Price would lead to an invoice for the entire delivered quantity for a lower price, which is not the case here. Hence, the Quantity should be adjusted. In case you have for example a 30%/70% invoice agreement, you can adjust the Quantity to 30% and 70% respectively. In the case above, where the total Quantity to invoice is 2, you can create a 30% invoice by adjusting the Quantity to 0,6 (30% of 2). The second invoice then can be Quantity 1,4 by which the entire Quantity will be consumed after 100% of the invoices is submitted. Please note that the Subtotal amount will be adjusted accordingly by adjusting the Quantity.

Create a credit memo linked to a material purchase order

**IMPORTANT**
Please note that Cargill only allows suppliers to create a credit memo on Ariba for material purchase orders. In addition, suppliers are requested to always credit the full amount of the invoice. Suppliers that need to create a credit memo for service purchase orders are requested to contact Cargill.

Follow the steps in section 2 to select the purchase order from Cargill in your Inbox or invoice in your Outbox that needs to be credited.

**Step 1.** Once you have selected the appropriate purchase order in your Inbox or invoice in your Outbox, click on « Create Invoice » and select the « Line-item Credit Memo » from the dropdown menu.
Step 2. Select the invoice you need to credit and click on « Create Line-Item Credit Memo ».

Step 3. Complete the « Credit Memo # » and « Credit Memo Date » fields based on the information from your internal system.
Step 4. Enter a Reason for the Credit Memo.

Work instruction – Create an invoice on the Ariba Network
Target audience – Suppliers transacting with Cargill using a full-use account
Contact – Supplier_Enablement_EMEA@cargill.com
Step 5. Enter the total negative quantity for each line item.

**IMPORTANT**
Suppliers are requested to always credit the full amount of the invoice.

Step 7. Review the credit memo and click on « Submit ».
Step 8. Your credit memo is sent to Cargill.

**IMPORTANT**
You are able to print a copy of the Ariba credit memo. In order to be compliant with local legislation, we advise you to check the internal processes within your organization regarding credit memo archiving requirements.
6 Explanation of the Payment Terms stated on Ariba

The Payments Term on your Purchase Order from Cargill on Ariba is noted in the following way:

**Example:** 0.000% 30

- **0.000%** refers to the *early payment discount* in case Cargill pays earlier than the agreed payment period
- **30** refers to the actual *payment term* of 30 days
