GETTING STARTED WITH Ariba Network

Logging In

2. Enter the User Name and Password you created when registering.
3. Click Login.
Navigating the Home Page

Once logged in, you will be directed to the home page. From here you will have access to tools you will need to begin transacting electronically.

Home Page Major Sections
1. Main navigation – Easily navigate between tools within Ariba Network.
2. Company information and settings – Quickly view your account information and settings.
3. Order, invoice, and payment notifications – Quick overview of order, invoice, and payment status.
4. Tasks – View any pending tasks to make sure your account is complete.
Main Navigation

1. **Home** – This is how you will navigate back to the home page.
2. **Inbox** – This is where you will find incoming notifications, orders, and releases. You will be able to create invoices, ship notices, order confirmations, and much more from this tab.
3. **Outbox** – This is where you can find your outgoing invoices, order confirmations, and ship notices. You will be able to create credit memos and view their status from this tab.
4. **Catalogs** – This is where you will be able to create, view, and edit your standard or Punch Out catalogs.
5. **Reports** – This is where you will be able to create and view reports on your account usage, such as POs and invoices sent through the network.
Cargill Specific Account Configuration

- **VAT ID / TAX ID** – select Company Settings in the top right corner, go to Company Profile and select tab Business. In the section Financial Information enter your Vat ID / Tax ID.

- **Payment Methods** – Cargill issues payments out of SAP TC2. Cargill does not utilize SAP Ariba as a payment system; you will continue to utilize payment notifications from Cargill for Cash Application.

- **Test Account Creation (only available in certain scenarios, i.e. Catalogs)** – To create a test account, select your name in top right corner and choose “Switch to Test ID.”

- **Currency** – The currency that Ariba Network uses in the service subscription area of your account is controlled by your organization’s location, which you specify in User Account Navigator > My Account > Preferences.
Accept Your Invitation

The invitation is also referred to as the Trading Relationship Request, or TRR. This e-mail contains information about transacting electronically with your customer.

1. Click the link in the emailed letter to proceed to the landing page.

Note: Please check the fee structure before accepting the TRR

Ariba offers invoice consolidation and synchronization for customers with several accounts:

- Fees will be invoiced only to the parent account with the payment cycle synchronized for the entire group.
- The parent account will receive one single invoice every three months for all customer relationships and for all linked accounts.
- This consolidation is related only to invoices issued by Ariba to the supplier, the business operations of each account are still independent.
Participate in a Multi-Org Guidelines

- The supplier needs to designate a **Parent ANID** under which the invoice will be viewed.
- The selection of the parent ANID determines the currency of the Multi-org invoice and the billing dates.
- The supplier should also have confirmed list of child ANID’s to be included on the invoice.
- A Multi-Org is NOT:
  - A way to merge accounts.
  - A way to get a discount on Transaction Fees.

Structure Your Multi-Org

1. **Register** all accounts which will be included in the Multi-Org.
2. **Create** a list of all ANIDs and designate the parent account.
3. **Wait** until the first ANID becomes chargeable.
4. **Contact Customer Support** through the Help Center and inform them of your need for the Multi Org.
Link Accounts Via an Account Hierarchy

Linkage between individual accounts for account management purposes

The administrator of the Parent account can log into the child account and take the following actions:

• Change settings on the child account and complete the company profile
• Publish catalogs
• Check the status of payment for the Ariba invoice and pay the invoice
• Upgrade to a higher Subscription package

The administrator of the Parent account cannot take following actions:

• View buyers on the Child account
• Create any documents (PO confirmations, Ship Notices, Invoices)
• Run Reports
Create an Account Hierarchy

1. From the Company Settings menu, click Account Hierarchy.
2. To add child accounts click on Link Accounts.
3. The Network will detect if there is an existing account with corresponding information.
4. On the next page log in if you are the Administrator of the account.
   
   Note: If you are not the Administrator of the account, you can send a request as a ‘Non Administrator’ to the Administrator through an online form.
5. Once the request is confirmed by a child account administrator, the name of the linked account is displayed on the Account Hierarchy page.

Cargill Requirements- Important

For Cargill suppliers that are live on AN:

- Purchase Orders will be solely sent via Ariba Network.
- Material Purchase Order confirmations must be done by the supplier in Ariba.
- Purchase Orders must be flipped into an invoice in AN, or else payment will not occur.
- Cargill does have specific requirements for suppliers transacting in AN with us. Cargill's requirements may be different than other customers (buyers).
- Cargill AN suppliers may support Cargill businesses that do not use SAP TC2 for transactions. In these cases the supplier should transact as they have previously with that business.
- Suppliers that are unaware of their companies Ariba account should be directed to contact their companies AN account administrator, e-commerce group, or electronic business team for info.
- Suppliers with questions about their companies business relationship with Cargill in AN should contact Cargill’s NA Supplier Enablement team at CSSP_NASUPPLIENERABLEMENT@CARGILL.COM.
Providing back up documentation for a PO from Cargill:

- You can attach support documents to any Cargill transaction in AN by adding notes in AN when you confirm and or invoice the order or by attaching related documents (quotes, estimates, time sheets) or by emailing the Cargill buyer directly.
- Payments will be made based on the actual PO values; PO values must reflect what you expect to be paid for the transaction. If PO values do not match what you expect to be paid you must work with your Cargill buyer to make corrections.

Note: If a service line is added before the order is confirmed, cancel the service line and the supplier will have the ability to confirm the order again.

Check Invoice Status
Routing Status To Your Customer

Check Status:
If you configured your Invoice Notifications as noted earlier in this presentation, you will receive emails regarding invoice status. You can also check invoice status from the Outbox by selecting the invoice link.

Routing Status
Reflects the status of the transmission of the invoice to Cargill via the Ariba Network.

- **Obsoleted** – You canceled the invoice
- **Failed** – Invoice failed Cargill invoicing rules. Cargill will not receive this invoice
- **Queued** – Ariba Network received the invoice but has not processed it
- **Sent** – Ariba Network sent the invoice to a queue. The invoice is awaiting pickup by the customer
- **Acknowledged** – Cargill invoicing application has acknowledged the receipt of the invoice
Check Invoice Status
Review Invoice Status With Your Customer

Invoice Status
Reflects the status of Cargill’s action on the Invoice.

• **Sent** – The invoice is sent to the Cargill but they have not yet verified the invoice against purchase orders and receipts
• **Cancelled** – Cargill approved the invoice cancellation
• **Paid** – Cargill paid the invoice / in the process of issuing payment. Only if Cargill uses invoices to trigger payment.
• **Approved** – Cargill has verified the invoice against the purchase orders or contracts and receipts and approved if for payment
• **Rejected** – Cargill has rejected the invoice or the invoice failed validation by Ariba Network. If Cargill accepts the invoice or approves it for payment, invoice status updated to Sent (invoice accepted) or Approved (invoice approved for payment)
• **Failed** – Ariba Network experienced a problem routing the invoice

**Note:** Rejected invoice needs to be actioned as per the comments given.

Reach out to Supplier relations team @ Fsc_SupplierRelations@cargill.com for questions on rejected/failed invoice.

Download Invoice Reports
Learn About Transacting

Reports help provide additional information and details on transactions on the Network in a comprehensive format.

1. Click the Reports tab from the menu at the top of the page.
2. Click Create.

- Invoice reports provide information on invoices you have sent to customers for tracking invoices over time or overall invoice volume for a period of time.
- Failed Invoice reports provide details on failed and rejected invoices. These reports are useful for troubleshooting invoices that fail to route correctly.
- Reports can be created by Administrator or User with appropriate permissions.
- Bronze (and higher) members may choose Manual or Scheduled report. Set scheduling information if Scheduled report is selected.
Invoice Reports

3. Enter required information. Select an Invoice report type — Failed Invoice or Invoice.
4. Click Next.
5. Specify Customer and Created Date in Criteria.
6. Click Submit.
7. You can view and download the report in CSV format when its status is Processed.

Note: For more detailed instructions on generating reports, refer to the Ariba Network Transactions Guide found on the HELP page of your account.
Invoice Archival

Configuring invoice archiving allows you to specify the frequency, immediacy, and delivery of zipped invoice archives. If you wish to utilize it, please follow these steps:

1. From the **Company Settings** dropdown menu, select **Electronic Invoice Routing**.
2. Select the tab **Tax Invoicing and Archiving**.
3. Scroll down to **Invoice Archival** and select the link for **Configure Invoice Archival**.
4. Select **frequency** (Twice Daily, Daily, Weekly, Biweekly or Monthly), choose **Archive Immediately** to archive without waiting 30 days, and click **Start**.
   - If you want Ariba to deliver automatically archived zip files to you, also enter an **Archive Delivery URL** (otherwise you can download invoices from your Outbox, section Archived Invoices).
   - **Note:** After **Archive Immediately** started you can either **Stop** it or **Update Frequency** any time.
5. You may navigate back to the **Tax Invoicing and Archiving** screen in order to subscribe to **Long-Term Document Archiving** for an integrated archiving solution. (More details within the Terms and Policies link.)
Auto-Generate a Service Entry Sheet
Create a Service Sheet from an Invoice

For customers who allow automatically generated service sheets, you can create service invoices for each service line on a service order, and the corresponding service sheets are automatically generated and sent to the customer.

To create an auto-generated Service Sheet

1. **Within** your INBOX, locate the PO to invoice against and select **Create Invoice** and select **Standard Invoice**.
2. **Review** the Pop-Up message on your screen, alerting you of the auto-generation (see right).
3. **Click** the X to proceed with invoice creation and submission.
4. **Once** the invoice is approved, the service sheet will automatically generate and be available in your **Outbox** under Service Sheets.

**Note:** If clicking the box to not show the warning message again, please be aware that service sheets will continue to auto-generate for customers with this option enabled during invoice creation.
Check Service Sheet Status

1. Click Outbox and select Service Sheets Tab.
2. Routing and Approval Status will be visible on each line.
3. If a Service Sheet is rejected or failed, view the reason by opening the Service Sheet and clicking the History Tab.
